INDEPENDENT AUDITOR'S REPORT

The Honorable Members of City Council
City of Woodway, Texas:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Woodway, Texas (the "City") as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this included the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Woodway, Texas as of September 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages iii through xii, the budgetary comparison information on pages 42 and 43, and other required supplementary information on pages 44 through 47 (collectively, "the required supplementary information") be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

March 11, 2021

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Woodway, Texas (the "City"), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City of Woodway, Texas for the fiscal year ended September 30, 2020. Please read it in conjunction with the City's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of the City exceeded its liabilities and deferred inflows at the close of the most recent fiscal year by \$48,956,830 (*net position*). Of this amount, \$7,485,990 represents unrestricted net position, which may be used to meet the government's ongoing obligations to citizens and creditors.
- For business-type activities and the water and sewer fund, the City recognized a special item – a \$7,805,150 loss from the termination of the Waco Metropolitan Area Regional Sewer System ("WMARSS") interlocal cooperative agreement, which results in the City no longer recognizing its undivided interest in the facilities and operations of WMARSS. Additional information on the termination of WMARSS is included in Note 14 to the financial statements.
- The government's total net position increased by \$4,484,833 during the year, primarily due to continued profitability of operations and developer contributions of \$2.3 million from the Badger Ranch – Phase Five and Hoyt Addition housing developments during the current year.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$16,572,072, an increase of \$450,015 from the prior year. Approximately 19% of the fund balance, \$3,098,406 (unassigned fund balance), is available for spending at the government's discretion.
- At the end of the current fiscal year, unrestricted fund balance (the total of the *committed*, *assigned*, and *unassigned* components of *fund balance*) for the general fund was \$3,950,429, or approximately 38% of total general fund expenditures.

Overview of the Financial Statements

The discussion and analysis provided here are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) the notes to the financial statements. This report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

Government-Wide Financial Statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *statement of net position* presents financial information on all of the City's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, public safety, highways and streets, sanitation, economic development, and culture and recreation. The business-type activities of the City include water and sewer operations.

The government-wide financial statements can be found on pages 1 – 2 of this report.

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *government funds* and *governmental activities*.

The City maintains twenty-three individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, the general capital projects fund, and the future capital street improvements fund, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation.

The basic governmental fund financial statements can be found on pages 3 through 5 of this report.

Proprietary fund. The City maintains one type of proprietary fund. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses an enterprise fund to account for its water and sewer operations. The proprietary fund provides the same type of information as the government-wide financial statements, only in more detail.

The basic proprietary fund financial statements can be found on pages 6 - 9 of this report.

Notes to the financial statements. The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 10 - 41 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the City's budgetary data for the general fund and information related to the net pension and total OPEB liabilities. Required supplementary information can be found on pages 42 through 47 of this report.

Government-wide Overall Financial Analysis

As noted earlier, net position over time, may serve as a useful indicator of a government's financial position. In the case of the City of Woodway, assets and deferred outflows of resources exceeded liabilities and deferred inflows by \$48,956,830 at the close of the most recent fiscal year.

City of Woodway Net Position September 30, 2020 and 2019

Net position:						
Net investment in capital assets	22,455,224	20,448,795	12,232,242	18,961,193	34,687,466	39,409,988
Restricted - nonexpendable	587,030	569,797	-	-	587,030	569,797
Restricted - expendable	5,811,867	5,207,215	384,477	378,123	6,196,344	5,585,338
Unrestricted	<u>6,295,070</u>	<u>6,723,882</u>	<u>1,190,920</u>	<u>(11,858)</u>	<u>7,485,990</u>	<u>6,712,024</u>
Total net position	<u>\$ 35,149,191</u>	<u>32,949,689</u>	<u>13,807,639</u>	<u>19,327,458</u>	<u>48,956,830</u>	<u>52,277,147</u>

By far, the largest portion of the City’s net position (71%) reflects its investment in capital assets (e.g., land, buildings, infrastructure, machinery, and equipment) less any related outstanding debt that was used to acquire those assets. The City uses these capital assets to provide a variety of services to its citizens. Accordingly, these assets are not available for future spending. Although the City’s investment in capital assets is reported net of related debt, it should be noted that the resources used to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City’s net position (14%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$7,485,990 is unrestricted and may be used to meet the government’s ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net assets for the government as a whole, as well as for its separate governmental and business-type activities. For 2019, the business-type activities reports unrestricted net position of a deficit of \$11,858, which results primarily from the Water and Sewer fund’s recognition of net pension and other postemployment benefits (“OPEB”) liabilities of \$703,565.

The City's net position before special item increased by \$4,484,833 during the current fiscal year. The reasons for this overall increase are discussed in the following sections for governmental activities and business-type activities.

Governmental activities. Governmental activities increased the City's net position before special item by \$2,199,502, thereby accounting for approximately 49% of the total growth in the net position of the City.

- Charges for services decreased \$326,219 due to the following decreases resulting from the impact of the COVID-19 pandemic: (1) decrease of \$172,040 for Arboretum rentals as large gatherings were significantly reduced; (2) decrease of \$88,474 for fees from the Woodway Family Center as the spring and summer sports programs were canceled; and (3) decrease of \$81,409 in police fines due to citizens driving less and state mandates that limited the types of fines that could be issued (e.g. registration expiration citations were not written and will not be written again until March 15, 2021).
- Operating grants increased \$499,175 due to grant revenues recognized under the Coronavirus Relief Fund in the current year.
- Capital grants and contributions increased \$498,150 primarily as a result of contributions from developers for infrastructure at the Badger Ranch – Phase Five and Hoyt Addition housing developments.
- Property taxes increased by \$394,122 during the year, which is primarily due to increased property values and new property being added to the tax roll.

- Sales taxes increased \$117,510 during the year due to more concentrated local spending and increased curbside and delivery services during the pandemic.
- Investment earnings and other general revenues decreased \$154,079 during the primarily as a result of market fluctuations due to the impact of the pandemic.

For the most part, increases in expenses closely paralleled inflation and growth in the demand for services and included a net pension expense recognized during the year.

Business-type activities. Business-type activities increased the City’s net position before special item by \$2,285,331, accounting for approximately 51% of the total growth in the government’s net position. Key elements of this increase are as follows.

- Charges for services increased \$206,971 due to an increase in gallons sold due to less rainfall in the summer than in the prior year.
- Capital grants and contributions increased \$633,584 primarily as a result of contributions from developers for water and sewer lines at the Badger Ranch Phase Five and Hoyt Addition housing developments.
- Interest income decreased \$244,506 as a result of decreases in market interest rates due to the pandemic and the spending of approximately \$2.9 million of the proceeds from the 2018 issuance of certificates of obligation in the amount of \$9.2 million.
- Expenses decreased \$200,571, which is primarily due to an increase in the cost of sewer services under the new wholesale wastewater contract with the City of Waco, and offset by a decrease in salaries, operating expenses and depreciation expense due to the termination of the WMARSS interlocal agreement effective October 1, 2019.
- Transfers out were \$123,685 in 2020 and 2019. These transfers represent water and sewer payments in lieu of taxes.

- The City recognized a special item – a \$7,805,150 loss from the termination of the WMARSS interlocal cooperative agreement, which results in the City no longer recognizing its undivided interest in the facilities and operations of WMARSS. Additional information on the termination of WMARSS is included in Note 14 to the financial statements.

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the City itself, or a group or individual that has been delegated authority to assign resources for use for particular purposes by the City Council.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$16,572,072, an increase of \$450,015 from the prior year. Approximately 4% of this total amount (\$643,976) constitutes nonspendable fund balance. Nonspendable fund balance represents net resources that are inherently nonspendable because of their form or because they must remain intact. Approximately 35% (\$5,742,099) of the total fund balance is classified as restricted. Restricted fund balance represents balances with constraints placed on the use of resources by creditors, grantors, contributors, or laws or regulations of other governments. Another 38% (\$6,235,568) of the fund balance is reported as committed. Committed fund balances represent resources that can only be used for specific purposes pursuant to constraints imposed by the City Council and would require formal action to remove or modify the commitment. Additionally, another 5% (\$852,023) of the fund balance is reported as assigned, which reflects intended uses of resources as determined by management based upon City Council direction. The remaining 18% of the fund balance (\$3,098,406) is reported as unassigned and represents the net residual resources.

The general fund is the chief operating fund of the City. At the end of the current fiscal year, unassigned fund balance of the general fund was \$3,098,406, while total fund balance increased to \$3,958,160. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 29% of the total general fund expenditures, while total fund balance represents 38% of that same amount.

The fund balance of the City's general fund increased by \$95,407 during the current fiscal year as compared to an increase of \$285,616 in the prior year. Key factors in this increase are as follows: Revenues, transfers in, and proceeds on sale of capital assets exceeded expenditures by \$973,407 during the current fiscal year as compared to an increase of \$1,336,164 in the prior year, primarily due to the following:

- Property taxes increased \$329,020 during the year, which is primarily due to increased property values and new property being added to the tax roll.

- Sales taxes increased \$117,510 during the year due to more concentrated local spending and increased curbside and delivery services during the pandemic.
- Intergovernmental revenue increased \$498,290 due to a new federal grant from the Coronavirus Relief Fund.
- Expenditures increased \$1,068,416, approximately 11% over the prior year, due to capital outlay of \$500,000 for the down payment on a new pumper fire truck, additional capital outlay of \$384,630 for land and building improvements and equipment purchases, and increases in salaries and related employee benefits due to annual raises and the addition of an assistant city manager and two new police officer positions.

The City transfers surplus funds from the general fund to various capital projects funds at year-end for future capital projects. A transfer was made at year-end for \$500,000 to the general capital projects fund for various future projects, and \$378,000 to the other non-major capital project funds for future capital improvements.

Proprietary funds. The City’s proprietary fund provides the same type of information found in the government-wide financial statements, but in more detail. Total net position of the water and sewer fund at the end of the year amounted to \$13,807,639, a decrease from the prior year of \$5,519,819, which results primarily from a special item – a \$7,805,150 loss from the termination of the WMARSS interlocal cooperative agreement, which results in the City no longer recognizing its undivided interest in the facilities and operations of WMARSS. Income before contributions, transfers and special item was \$1,166,857. Capital contributions were \$1,242,159 as a result of contributions from developers for water and sewer lines at the Badger Ranch Phase Five and Hoyt Addition housing developments, and transfers out were \$123,685 for payments in lieu of taxes, resulting in a decrease in net position of \$5,519,819. Other factors concerning the finances of this fund have already been addressed in the discussion of the City’s business-type activities.

General Fund Budgetary Highlights

There are no differences between the original budget and the final amended budget. There were no significant budget overages in the general fund for the year ended September 30, 2020; however, there were transfers out to the general capital projects fund and other non-major capital projects funds of \$878,000 that exceeded budget by \$692,000. Additionally, the following budgetary highlights are noted:

- Sales taxes were \$133,856 more than budgeted due to a conservative approach to budgeting sales tax revenues.
- Intergovernmental revenue was \$518,527 more than budgeted due to unbudgeted federal grant revenues from the Coronavirus Relief Fund.
- Charges for services were \$282,047 less than budgeted due to a reduction in Arboretum rentals as large gatherings were significantly reduced; and a reduction in fees from the Woodway Family Center, as the spring and summer sports programs were canceled due to the pandemic.

- The \$220,359 and \$453,063 positive variance for general government and public safety expenditures, respectively, results from amounts budgeted for salaries and benefits for authorized positions that were not filled, as well as amounts budgeted during the year for equipment not purchased.

Capital Assets and Debt Administration

Capital assets. The City’s investment in capital assets for its governmental and business type activities as of September 30, 2020, amounts to \$43,609,590 (net of accumulated depreciation), and is a decrease of \$2,841,740 from the prior year, primarily due to the termination of the WMARSS interlocal cooperative agreement, which results in the City no longer recognizing its undivided interest in the facilities of WMARSS of \$6,826,161 and depreciation expense of \$2,149,500, offset by capital additions of \$3,235,969 for governmental activities and \$2,897,952 for business-type activities. This investment in capital assets includes land, intangible assets, land improvements, buildings and improvements, infrastructure, water and sewer facilities, vehicles and equipment, and construction in progress.

	<u>\$ 22,955,286</u>	<u>21,040,197</u>	<u>20,654,304</u>	<u>25,411,133</u>	<u>43,609,590</u>	<u>46,451,330</u>

Major capital asset events during the current fiscal year included developer contributions of \$2,258,471 for infrastructure from the Badger Ranch – Phase Five and Hoyt Addition housing developments; completion of phase one and continued work on the Fairway sewer replacement project of \$225,151; and current year expenditures of \$500,000 for the down payment on a new pumper fire truck; \$340,298 for renovations to the Community Center; and \$512,104 for the purchase of new vehicles and other heavy equipment. Additional information on the City’s capital assets can be found in Note 7 on pages 23 - 26 of this report.

Long-term debt. At the end of the current fiscal year, the City had total bonded debt outstanding of \$15,507,337, which comprises general obligation refunding bonds and certificates of obligation backed by the full faith and credit of the government.

City of Woodway

Compensated absences	503,809	403,642	46,905	36,881	550,714	440,523
Net pension liability	3,513,536	5,008,478	479,119	682,974	3,992,655	5,691,452
Total OPEB liability	195,095	151,003	26,604	20,591	221,699	171,594
	<u>\$ 4,691,108</u>	<u>6,124,525</u>	<u>15,581,297</u>	<u>16,614,228</u>	<u>20,272,405</u>	<u>22,738,753</u>

The City’s total long-term debt decreased by approximately \$2,466,348 (approximately 11%) during the current fiscal year. This change resulted from scheduled principal payments of \$0.9 million, and a decrease in the net pension liability of approximately \$1.7 million.

The City maintains an “Aa2” rating from Moody’s Investors Service, and the City maintains an “AA+” rating from Standard and Poor’s. Additional information on the City’s long-term debt can be found in Note 8 on pages 26 - 28 of this report.

Economic Factors and Next Year’s Budgets and Rates

At the end of the current fiscal year, unassigned fund balance for the general fund was \$3,098,406. The City has not appropriated any of this amount for spending in the 2021 fiscal year budget. The 2021 fiscal year budget of \$11,347,245 for the general fund is a balanced budget.

Requests for Information

This financial report is designed to provide a general overview of the City of Woodway’s finances for all those with an interest in the government’s finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Finance Director, City of Woodway, 922 Estates Drive, Woodway, Texas 76712.

City of Woodway, Texas

Reconciliation of the Statement of Revenues,
Expenditures, and Changes in Fund Balances of
Governmental Funds to the Statement of Activities

Year Ended September 30, 2020

Net change in fund balances - total governmental funds	\$	450,015
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital asset additions (\$2,219,657) exceeded depreciation expense (\$1,320,880) in the current period.		898,777
Donations of capital assets increase net position in the statement of but do not appear in the governmental funds because they are not financial resources		1,016,312
Property tax revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		13,465
The issuance of long-term debt (e.g., bonds, notes payable) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.		82,734
Accrued interest expense and compensated absences reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.		(99,767)
Governmental funds report contributions to pension/OPEB plans as expenditures, whereas pension/OPEB expense is recognized in the statement of activities. This is the amount by which pension/OPEB expense (\$767,607) exceeded contributions to the plans (\$605,573) in the current period.		<u>(162,034)</u>
Change in net position of governmental activities	\$	<u><u>2,199,502</u></u>

City of Woodway, Texas

Notes to Financial Statements

September 30, 2020

(1) Nature of Operations and Reporting Entity

The City of Woodway, Texas (the “City”) is a home-rule municipal corporation organized and existing under the provisions of the Constitution of the State of Texas. The City operates under a Council-Manager form of government and provides the following services: public safety (police and fire), highways and streets, sanitation, health and social services, culture-recreation, public improvements, planning and zoning, and general administrative services.

The accompanying financial statements present the City and any of its component units, entities for which the government is considered financially accountable. The City did not identify any entities for which it is financially accountable.

(2) Summary of Significant Accounting Policies(a) Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

City of Woodway, TexasNotes to Financial Statements
(Continued)(2) Summary of Significant Accounting Policies (continued)(a) Government-wide and fund financial statements (continued)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the City's water and sewer functions and various other functions of the government. Elimination of these charges would distort the direct costs and program revenue reported for the various functions concerned.

(b) Measurement focus, basis of accounting and financial statement presentation

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured, such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus*, and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized

City of Woodway, TexasNotes to Financial Statements
(Continued)(2) Summary of Significant Accounting Policies (continued)(b) Measurement focus, basis of accounting
and financial statement presentation (continued)

as revenues of the current fiscal period. Fines and miscellaneous revenues are considered to be measurable and available only when cash is received by the City.

The proprietary fund is reported using the *economic resources measurement focus*, and the *accrual basis of accounting*.

The City reports the following major governmental funds:

General Fund - The general fund is the City's primary operating fund. It is used to account for all financial resources of the general government except those required to be accounted for in another fund.

General Capital Projects Fund – The general capital projects fund provides funding for non-routine general City projects. These projects are typically significant in cost. The projects are funded through year-end excess transfers from the general fund.

Future Capital Street Improvements Fund – The future capital street improvements fund accounts for property taxes specifically levied for street improvements.

The City reports the following major proprietary fund:

Water and Sewer Fund - The water and sewer fund accounts for the activities of the water distribution system, the sewage treatment plant, sewage pumping stations and collection systems.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water and sewer

City of Woodway, TexasNotes to Financial Statements
(Continued)(2) Summary of Significant Accounting Policies (continued)(b) Measurement focus, basis of accounting
and financial statement presentation (continued)

enterprise funds are charges to customers for sales and services. The water and sewer funds also recognize as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for the enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

(c) Deposits and investments

The City's cash and cash equivalents for purposes of reporting cash flows of the proprietary fund consist of cash on hand, demand deposits, and deposits in the City's internal cash and public funds investment pools.

State statutes authorize the City to invest in U.S. Treasury and agency securities, commercial paper, guaranteed investment contracts, repurchase agreements, and certain governmental investment pools. The City's local investment policy limits the City to invest in U.S. Treasury and agency securities, certificates of deposit, fully collateralized repurchase agreements secured by U.S. Treasury and agency securities, and public funds investment pools.

Investments are reported at fair value, except for public funds investment pools. The public funds investment pools operate in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the amortized cost of the pool shares.

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

City of Woodway, TexasNotes to Financial Statements
(Continued)(2) Summary of Significant Accounting Policies (continued)(d) Receivables and payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either “due to/from other funds” or “advances to/from other funds.” All other outstanding balances between funds are reported as “due to/from other funds.”

All trade and property tax receivables are shown net of an allowance for uncollectibles. Trade accounts receivable in excess of 120 days comprise the trade accounts receivable allowance for uncollectibles.

(e) Inventories and prepaid expenses

All inventories are valued at the lower of cost (first-in, first-out) or market. Inventories are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

(f) Restricted assets

Restricted cash accounts in the water and sewer fund are used to report (1) unspent bond proceeds, (2) customer deposits, and (3) bond reserve funds.

(g) Capital assets

Capital assets, which include land, land improvements, buildings and improvements, infrastructure, water and sewer facilities, equipment, and construction in progress are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The City has elected to report general infrastructure assets prospectively from October 1, 2003 as permitted by Governmental Accounting Standards Board Statement No. 34. Capital assets are defined by the City as assets with an initial, individual cost of more than \$1,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

City of Woodway, Texas

Notes to Financial Statements
(Continued)

(2) Summary of Significant Accounting Policies (continued)

(g) Capital assets (continued)

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Capital assets of the City are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Land improvements	5 - 40
Buildings and improvements	5 - 40
Water and sewer systems	5 - 30
Infrastructure	40
Equipment	3 - 40

(h) Compensated absences

It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. All vacation and sick pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for compensated absences is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

(i) Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the Fiduciary Net Position of the Texas Municipal Retirement System ("TMRS") and additions to/deductions from TMRS's Fiduciary Net Position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

City of Woodway, TexasNotes to Financial Statements
(Continued)(2) Summary of Significant Accounting Policies (continued)(j) Other Post-Employment Benefits (“OPEB”)

The fiduciary net position of the City’s defined benefit life insurance plan (OPEB Plan) has been determined using the flow of economic resources measurement focus and the full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expense, and information about assets, liabilities, and additions to/deductions from the OPEB Plan’s net position. Benefit payments are recognized when due and payable in accordance with benefit terms. There are no investments as this is a pay-as-you-go plan.

(k) Deferred outflows and inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

(l) Long-term obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed as incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

City of Woodway, Texas

Notes to Financial Statements
(Continued)

(2) Summary of Significant Accounting Policies (continued)

(m) Fund balance

In the fund financial statements, governmental fund balances classified as restricted are balances with constraints placed on the use of resources by creditors, grantors, contributors, or laws or regulations of other governments. Fund balances classified as committed can only be used for specific purposes pursuant to constraints imposed by the City Council through a resolution. Assigned fund balances are constrained by the intent to be used for specific purposes but are neither restricted nor committed. Assignments are made by City management based upon City Council direction. The order of spending available resources is as follows: restricted, committed, assigned, and unassigned.

The following detail of fund balances by classification is shown for governmental funds:

	<u>General</u>	<u>General Capital Projects</u>	<u>Future Capital Street Improvements</u>	<u>Other Governmental</u>	<u>Total</u>
Fund balances:					
Nonspendable:					
Prepaid expenditures and other assets	\$ 7,731	-	-	-	7,731
Arboretum endowment	-	-	-	636,245	636,245
Restricted for:					
Public safety	-	-	-	196,392	196,392
Highways and streets	-	-	3,318,952	-	3,318,952
Economic development	-	-	-	2,184,823	2,184,823
Debt service	-	-	-	41,932	41,932
Committed to:					
Economic development	-	-	-	134,011	134,011
Culture and recreation	-	-	-	70,841	70,841
Capital projects	-	5,218,059	-	812,657	6,030,716
Assigned to:					
Capital improvements	852,023	-	-	-	852,023
Unassigned	<u>3,098,406</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>3,098,406</u>
	<u>\$ 3,958,160</u>	<u>5,218,059</u>	<u>3,318,952</u>	<u>4,076,901</u>	<u>16,572,072</u>

City of Woodway, Texas

Notes to Financial Statements
(Continued)

(2) Summary of Significant Accounting Policies (continued)

(n) Net position

In the government-wide and proprietary fund financial statements, net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent bond proceeds.

Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislations adopted by the City or through external restrictions imposed by creditors, grantors, laws or regulations of other governments. When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

Restricted net position for governmental activities at September 30, 2020 consists of \$636,245 restricted for endowment; \$196,392 restricted for public safety; \$3,329,594 restricted for highway and streets; \$2,187,384 restricted for economic development; and \$49,282 restricted for debt service. Restricted net position for business-type activities at September 30, 2020 consists of \$384,477 restricted for debt service.

(3) Reconciliation of Government-wide and Fund Financial Statements

(a) Explanation of Certain Differences Between the Governmental Funds Balance Sheet and the Government-wide Statement of Net Position

The governmental funds balance sheet includes a reconciliation between *fund balances – total governmental funds* and *net position – governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains, “long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds.” The details of this \$4,486,695 difference are as follows:

Certificates of obligation	\$ (465,000)
Plus: issuance premiums (to be amortized as interest expense)	(13,668)
Accrued interest payable	(2,325)
Compensated absences	(503,809)
Net pension liability, and related deferred inflows of \$1,403,490 and deferred outflows of \$1,586,121	(3,330,905)
Total OPEB liability, and related deferred inflows of \$12,482 and deferred outflows of \$36,589	<u>(170,988)</u>
Net adjustment to reduce <i>fund balance - total government funds</i> to arrive at <i>net position - governmental activities</i>	<u>\$ (4,486,695)</u>

City of Woodway, Texas

Notes to Financial Statements
(Continued)

(3) Reconciliation of Government-wide and Fund Financial Statements (continued)

(b) Explanation of Certain Differences Between the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental funds' statement of revenues, expenditures and changes in fund balances includes a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains, "The issuance of long-term debt (e.g., bonds, notes payable) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items." The details of this \$82,734 difference are as follows:

Principal repayments on certificates of obligation	\$ 80,000
Amortization of bond premiums	<u>2,734</u>
Net adjustment to increase <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net position of governmental activities</i>	<u>\$ 82,734</u>

(4) Budgets and Budgetary Accounting

The City prepares its budget on a basis of accounting that differs from generally accepted accounting principles. Expenditures under the budgetary basis of accounting include all purchase orders and contracts executed during the year and liquidated within 90 days of the end of the fiscal year.

The following procedures are implemented by the City in establishing budgetary data:

- Prior to the beginning of each fiscal year, the Mayor submits to the City Council a proposed budget for the fiscal year beginning on the following October 1. The operating budget includes proposed expenditures and the means of financing those expenditures.

City of Woodway, Texas

Notes to Financial Statements
(Continued)

(4) Budgets and Budgetary Accounting (continued)

- Public hearings are conducted at which all interested persons' comments concerning the budget are heard.
- The budgets are then legally enacted by the City Council. Formal budgetary integration is employed for the general fund and debt service fund.
- Budget revisions are made during the year.
- Actual expenditures and operating transfers out may not legally exceed budget appropriations at the individual function level. However, budgetary control is maintained at the department level.

Transfers out exceeded appropriations for the general fund for the year ended September 30, 2020 by \$692,000. This over-expenditure was funded by lower than anticipated expenditures in other functions within the general fund.

(5) Deposits and Investments

A summary of the City's cash and cash equivalents at September 30, 2020 follows:

Cash in bank and certificates of deposit	\$ 16,735,411
Public funds investments pools:	
Texas Local Government Investment Pool ("TexPool")	1,222,899
Texas Short Term Asset Reserve Fund ("TexStar")	<u>6,504,767</u>
Total cash and cash equivalents	<u><u>\$ 24,463,077</u></u>

In January 2016, the City received a bequest in the amount of \$465,488 to establish an endowment fund for the Arboretum, with the stipulation that the corpus remain intact and that 10% of the annual income be added to the corpus to guard against inflation. At September 30, 2020, the City's investments for the endowment fund consisted of the following, all of which are valued using quoted market prices (Level 1):

Money market mutual funds	\$ 17,268
Equity mutual funds	60,831
Common stocks	286,323
Fixed mutual funds	<u>222,608</u>
Total investments	<u><u>\$ 587,030</u></u>

City of Woodway, TexasNotes to Financial Statements
(Continued)(5) Deposits and Investments (continued)

The public funds investment pools have been created pursuant to the Interlocal Corporation Act of the State of Texas. The City has delegated the authority to hold legal title to TexPool and TexStar, as custodians and to make investment purchases with the City's funds.

TexPool. The State Comptroller of Public Accounts (the "Comptroller") is the sole officer, director, and shareholder of the Texas Treasury Safekeeping Trust Company (the "Trust Company") which is authorized to operate TexPool. Additionally, the Comptroller has established an advisory board composed of both participants in TexPool and other persons who do not have a business relationship with TexPool. The advisory board members review the investment policy and management fee structure. There are no maximum transaction amounts and withdrawals from TexPool may be made daily. TexPool uses amortized cost rather than fair value to report net assets share prices.

TexStar. TexStar is a Texas public funds investment pool that is co-administered by J.P. Morgan Chase and First Southwest Asset Management, Inc. TexStar is managed by a five-member board comprised of three representatives of eligible governmental entities and one member designated by each of the co-administrators. There are no maximum transaction amounts and withdrawals from TexStar may be made daily. TexStar uses amortized cost rather than fair value to report net assets share prices

Custodial Credit Risk. The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. City policy requires all deposits to be fully secured in accordance with the Texas Government Code, Chapter 2257, by either surety bonds, letters of credit of the United States or its agencies and instrumentalities, or by eligible securities held by an independent third-party custodian.

For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the City would not be able to recover the value of its investment or collateralized securities that are in the possession of an outside third party. The City's investment policy requires that the purchase of investment securities be settled on a delivery basis and that ownership of all securities be perfected in the name of the City.

Interest Rate Risk. In accordance with its investment policy, the City manages its exposure to declines in fair value by: (a) structuring the investment portfolio so that investments mature to meet cash requirements for ongoing operations, (b) investing operating funds primarily in shorter-term securities, (c) diversifying maturities and staggering purchase

City of Woodway, Texas

Notes to Financial Statements
(Continued)

(5) Deposits and Investments (continued)

dates to minimize the impact of market movements over time. It is the City's policy not to invest in securities maturing more than one year from the date of purchase. For repurchase agreements, the maximum maturity is 90 days. At September 30, 2020, the weighted average maturity of TexPool and TexStar is 38 days and 39 days, respectively.

Credit risk. The City's investment policy limits investments in government investment pools and money market mutual funds to those that are rated no lower than AAA or an equivalent rating by at least one nationally recognized rating service. At September 30, 2020, TexPool and TexStar are rated AAAM by Standard & Poor's.

(6) Receivables

Receivables as of September 30, 2020 for the City's individual major funds and nonmajor funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	<u>General</u>	<u>Future Capital Street Improvements</u>	<u>Other Governmental</u>	<u>Water and Sewer</u>	<u>Total</u>
Receivables:					
Property taxes	\$ 87,975	10,642	9,911	-	108,528
Sales and franchise taxes	551,901	-	-	-	551,901
Hotel occupancy taxes	-	-	104,856	-	104,856
Intergovernmental	416,777	-	-	-	416,777
Accounts	176,085	-	-	970,930	1,147,015
Other	3,369	-	228	-	3,597
	<u>1,236,107</u>	<u>10,642</u>	<u>114,995</u>	<u>970,930</u>	<u>2,332,674</u>
Gross receivables					
Less: allowance for uncollectibles	<u>30,897</u>	<u>-</u>	<u>-</u>	<u>150,907</u>	<u>181,804</u>
	<u>\$ 1,205,210</u>	<u>10,642</u>	<u>114,995</u>	<u>820,023</u>	<u>2,150,870</u>

The City's property tax is levied each October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the City. The net assessed value upon which the 2019 levy was based was \$1,249,041,904.

Taxes are due by January 31 following the October 1 levy date. Current tax collections for the year ended September 30, 2020 were 99.2% of the tax levy.

City of Woodway, Texas

Notes to Financial Statements

(7) Capital Assets (continued)

The City has entered into a joint agreement with the City of McGregor, Texas for the McGregor waterline project, and the City has completely funded its portion of the total cost of the project as of September 30, 2020. The governmental activities commitments will be financed with available resources. The Fairway Sewer Interception Replacement and other water and sewer projects will be funded with bond proceeds.

(8) Long-Term Liabilities

Long-term liabilities consist of bonded indebtedness, compensated absences, a net pension liability, and a total OPEB liability. The City issues certificates of obligation bonds to provide funds for the acquisition and construction of major capital facilities and pledges income derived from the acquired or constructed assets to pay debt service. Compensated absences, the net pension liability, and total OPEB liability are generally liquidated by the general fund and the enterprise fund.

Long-term liability activity for the year ended September 30, 2020, was as follows:

	<u>October 1, 2019</u>	<u>Additions</u>	<u>Retirements</u>	<u>September 30, 2020</u>	<u>Due Within One Year</u>
Governmental activities:					
Certificates of obligation	\$ 545,000	-	(80,000)	465,000	85,000
Plus: deferred premiums	16,402	-	(2,734)	13,668	-

2031-2035	2,470,000	769,612
2036-2040	2,390,000	427,914
2041-2042	<u>1,070,000</u>	<u>56,525</u>
	<u>\$ 14,395,000</u>	<u>4,313,631</u>

The City is required under provisions of certain bond ordinances to maintain interest and sinking funds adequate for payments of principal and interest and has pledged certain net operating revenues (after the payment of operation and maintenance expenses) of the water and sewer fund to repay \$16.1 million in revenue bonds issued from 2007 to 2017. Proceeds from the bonds provided financing for the construction of water and sewer system facilities. The total principal and interest remaining to be paid on the bonds is \$16.3 million. Principal and interest paid for the current year and total of pledged net operating revenues of the water and sewer fund were \$946,413 and \$1,315,095, respectively. The City is in compliance with all significant financial limitations and restrictions mentioned above.

City of Woodway, TexasNotes to Financial Statements
(Continued)(9) Deferred Outflows/Inflows of Resources (continued)

Deferred Outflows of Resources: The deferred charge on refunding, resulting from the difference in the carrying value of refunded debt and its reacquisition price, is amortized as interest expense over the shorter of the life of the refunded debt or refunding debt. Post-measurement date contributions will be recognized as a reduction of the net pension/OPEB liability in the following fiscal year. The pension/OPEB related deferred amounts will be amortized into pension/OPEB expense.

Deferred Inflows of Resources: The governmental funds, under the modified accrual basis of accounting, report unavailable revenues from property taxes, which is deferred and recognized as an inflow of resources in the period that the amounts become available. The pension/OPEB amounts will be amortized into pension/OPEB expense.

(10) Defined Benefit Pension Plan

Plan Description - The City participates as one of 888 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System ("TMRS"). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the "TMRS Act") as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax qualified plan under Section 401(a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report ("CAFR") that can be obtained at www.tmr.com.

All eligible employees of the City are required to participate in TMRS.

Benefits Provided - TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the City-financed monetary credits, with interest, were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payment options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

City of Woodway, Texas

Notes to Financial Statements
(Continued)

(10) Defined Benefit Pension Plan (continued)

Employees covered by benefit terms: At the December 31, 2019 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries current receiving benefits	43
Inactive employees entitled to but not yet receiving benefits	66
Active employees	<u>83</u>
	<u>192</u>

Contributions - The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the City matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the City. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for the City were required to contribute 7% of their annual gross earnings during the fiscal year. The contribution rates for the City were 16.46% and 16.77% in calendar years 2019 and 2020, respectively. The City's contributions to TMRS for the year ended September 30, 2020 were \$951,400 and were equal to the required contributions.

Net Pension Liability - The City's net pension liability was measured as of December 31, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial assumptions: The total pension liability in the December 31, 2019 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.5% per year
Overall payroll growth	2.75% per year, adjusted down for population declines, if any
Investment rate of return	6.75%, net of pension plan investment expense, including inflation

Salary increases are based on a service-related table. Mortality rates for active members are based on the PUB(10) mortality tables with the Public Safety table used for males and the General Employee table used for females. Mortality rates for healthy retirees and beneficiaries are based on the gender-distinct 2019 Municipal Retirees of Texas mortality tables. The rates for actives, healthy retirees and beneficiaries are projected on a fully generational basis by Scale UMP to account for future mortality improvements.

City of Woodway, Texas

Notes to Financial Statements
(Continued)

(10) Defined Benefit Pension Plan (continued)

For disabled annuitants, the same mortality tables for healthy retirees is used with the 4-year set-forward for males and a 3-year set-forward for females. In addition, a 3.5% and 3.0% minimum mortality rate is applied, for males and females respectively, to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by Scale UMP to account for future mortality improvements subject to the floor.

The actuarial assumptions were developed primarily from the actuarial investigation of the experience of TMRS over the four year period from December 31, 2014 to December 31, 2018. They were adopted in 2019 and first used in the December 31, 2019 actuarial valuation. The post-retirement mortality assumption for Annuity Purchase Rate (“APRs”) is based on the Mortality Experience Investigation Study covering 2009 through 2011 and dated December 31, 2013. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. In determining their best estimate of a recommended investment return assumption under the various alternative asset allocation portfolios, the actuarial firm focused on the area between (1) arithmetic mean (aggressive) without an adjustment for time (conservative) and (2) the geometric mean (conservative) with an adjustment for time (aggressive). The target allocation and best estimates of arithmetic real rates of return for each major asset class in fiscal year 2020 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return (Arithmetic)</u>
Global equity	30.0%	5.30%
Core fixed income	10.0%	1.25%
Non-core fixed income	20.0%	4.14%
Real return	10.0%	3.85%
Real estate	10.0%	4.00%
Absolute return	10.0%	3.48%
Private equity	10.0%	7.75%
Totals	<u>100.0%</u>	

City of Woodway, Texas

Notes to Financial Statements
(Continued)

(10) Defined Benefit Pension Plan (continued)

Discount Rate: The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the Net Pension Liability

		Increase (Decrease)		
		Total Pension	Plan Fiduciary	Net Pension
		Liability (a)	Net Position (b)	Liability (a) - (b)
Balance at December 31, 2018	\$	27,892,682	22,201,230	5,691,452
Changes for the year:				
Service cost		879,656	-	879,656
Interest		1,875,511	-	1,875,511
Difference between expected and actual experience		178,467	-	178,467
Change in assumptions		55,501	-	55,501

(10) Defined Benefit Pension Plan (continued)

Pension Plan Fiduciary Net Position: Detailed information about the pension plan's Fiduciary Net Position is available in a separately-issued TMRS financial report. That report may be obtained on the Internet at www.tmrs.com.

*Pension Expense and Deferred Outflows of Resources
and Deferred Inflows of Resources Related to Pensions*

For the year ended September 30, 2020, the City recognized pension expense of \$1,112,511. At September 30, 2020, the City reported deferred outflows and inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Contributions subsequent to the measurement date	\$ 688,151	-
Differences between expected and actual experience	282,842	1,594,875
Change in assumptions	42,063	-
Difference between projected and actual earnings on pension plan investments	<u>789,354</u>	<u>-</u>
Total	<u>\$ 1,802,410</u>	<u>1,594,875</u>

The \$688,151 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ending September 30, 2021. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ended December 31:</u>	
2020	\$ (67,549)
2021	(150,651)
2022	117,307
2023	<u>(379,723)</u>
	<u>\$ (480,616)</u>

City of Woodway, Texas

Notes to Financial Statements
(Continued)

(11) Other Post-Employment Benefits (“OPEB”)

Plan Description - The City also participates in a defined benefit group term life insurance plan administered by the Texas Municipal Retirement System (“TMRS”) known as the Supplemental Death Benefits Fund (“SDBF”). The City elected, by ordinance, to provide group term life insurance coverage to both current and retired employees. The City may terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1. As the TMRS SDBF covers both active and retired members, with no segregation of assets, the SDBF does not meet the definition of a trust under paragraph 4 of Governmental Accounting Standards Board (“GASB”) No 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions* (i.e. no assets are accumulated for OPEB). As such, the SDBF is considered to be a single-employer unfunded OPEB plan with benefit payments treated as being equal to the City’s yearly contributions for retirees.

Benefits Provided - The death benefit for active employees provides a lump-sum payment approximately equal to the employee’s annual salary (calculated based on the employee’s actual earnings, for the 12-month period preceding the month of death). The death benefit for retirees is a fixed amount of \$7,500.

Employees covered by benefit terms: At the December 31, 2019 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees current receiving benefits	25
Inactive employees entitled to but not yet receiving benefits	12
Active employees	<u>83</u>
	<u>120</u>

Contributions - The City contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year. The intent is not to pre-fund retiree term life insurance during employees’ entire careers.

The City’s contributions to the SDBF for the year ended September 30, 2020 were \$8,965, respectively, which equaled the required contribution for the year.

Total OPEB Liability - The City’s total OPEB liability was measured as of December 31, 2019, and was determined by an actuarial valuation as of that date.

City of Woodway, Texas

Notes to Financial Statements
(Continued)

(11) Other Post-Employment Benefits (“OPEB”) (continued)

Actuarial assumptions: The total OPEB liability in the December 31, 2019 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.5%
Salary increases	3.5% to 10.5%, including inflation
Discount rate	2.75% (based on the Fidelity Index’s “20-Year Municipal GO AA index” rate as of December 31, 2019)
Administrative expenses	All administrative expenses are paid through the TMRS Pension Trust
Mortality rates – service retirees	2019 Municipal Retirees of Texas Mortality Tables. The rates are projected on a fully generational basis with scale UMP
Mortality rates – disabled retirees	2019 Municipal Retirees of Texas Mortality Tables with a 4-year set-forward for males and a 3-year set-forward for females. In addition, a 3.5% and 3.0% minimum mortality rate will be applied to reflect the impairment of younger members who become disabled for males and females, respectively. The rates are projected on a fully generational basis by Scale UMP to account for future mortality improvements subject to the floor.

The actuarial assumptions used in the December 31, 2019 valuation were based on the results of an actuarial experience study for the period December 31, 2014 to December 31, 2018.

The changes in the total OPEB liability for the measurement period ending December 31, 2019 was as follows

	Total OPEB Liability
Balance at December 31, 2018	\$ <u>171,594</u>
Changes for the year:	
Service cost	12,489
Interest	6,578
Differences between expected and actual experience	(5,501)
Changes in assumptions or other inputs	37,625
Benefit payments **	<u>(1,086)</u>
Net changes	<u>50,105</u>
Balance at December 31, 2019	\$ <u><u>221,699</u></u>

City of Woodway, Texas

Notes to Financial Statements
(Continued)

(11) Other Post-Employment Benefits (“OPEB”) (continued)

**Due to the SDBF being considered an unfunded OPEB plan under GASB 75, benefit payments are treated as being equal to the employer’s yearly contribution for retirees.

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate: The following presents the total OPEB liability of the City, calculated using the discount rate of 2.75%, as well as what the City’s total OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (1.75%) or one percentage point higher (3.75%) than the current rate:

	<u>1% Decrease in Discount Rate (1.75%)</u>	<u>Current Discount Rate (2.75%)</u>	<u>1% Increase in Discount Rate (3.75%)</u>
City's total OPEB liability	\$ <u>271,585</u>	<u>221,699</u>	<u>183,338</u>

*OPEB Expense and Deferred Outflows of Resources
and Deferred Inflows of Resources Related to OPEB*

For the year ended September 30, 2020, the City recognized OPEB expense of \$24,161. At September 30, 2020, the City reported deferred outflows and inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Contributions subsequent to the measurement date	\$ 821	-
Differences between expected and actual experience	633	4,680
Change in assumptions	<u>40,125</u>	<u>9,504</u>
Total	<u>\$ 41,579</u>	<u>14,184</u>

The \$821 reported as deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability for the year ending September 30, 2021. Other amounts reported as deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

City of Woodway, Texas

<u>Year Ended December 31:</u>	
2020	\$ 5,094
2021	5,094
2022	5,094
2023	4,530
2024	3,408
Thereafter	<u>3,354</u>
	<u>\$ 26,574</u>

(12) Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters. The City has joined together with other governments in Texas to form the Texas Municipal League Intergovernmental Risk Pool, a public entity risk pool currently operating as a common risk management and insurance program for liability, property, and workmen’s compensation coverages. The City pays a quarterly contribution to the pool for its insurance coverage. The agreement for formation of the Texas Municipal League Intergovernmental Risk Pool provides that the Pool will be self-sustaining through member contributions and will reinsure through commercial companies for claims in excess of specific limits.

The Texas Municipal League Intergovernmental Risk Pool has published its own financial report, which can be obtained by writing the Texas Municipal League Intergovernmental Risk Pool, 1821 Rutherford Lane, Austin, Texas 78754.

(13) Interfund Transfers

Following is a summary of transfers for the year ended September 30, 2020.

	<u>Transfers In</u>			<u>Total</u>
	<u>General</u>	<u>General Capital Projects</u>	<u>Nonmajor Govern- mental</u>	
Transfers out:				
General	\$ -	500,000	378,000	878,000
Nonmajor governmental	373,848	-	183,000	556,848
Water and sewer	<u>123,685</u>	<u>-</u>	<u>-</u>	<u>123,685</u>
Total transfers	<u>\$ 497,533</u>	<u>500,000</u>	<u>561,000</u>	<u>1,558,533</u>

City of Woodway, TexasNotes to Financial Statements
(Continued)(13) Interfund Transfers (continued)

Transfers are used to (1) move revenues from the fund responsible for collecting them to the fund responsible for expending them as required by statute or budget, and (2) move unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. Also, the City made payments from the water and sewer fund to the general fund in lieu of taxes. The City reported these payments as transfers.

(14) Termination of Agreement for Undivided Interest in Waco Metropolitan Area Regional Sewer System

During 2004, the City entered into an interlocal cooperative agreement with the City of Waco, Texas, the City of Bellmead, Texas, the City of Hewitt, Texas, the City of Lorena, Texas, the City of Lacy Lakeview, Texas, and the City of Robinson, Texas to acquire an undivided interest in the facilities and operations of the Waco Metropolitan Area Regional Sewer System (“WMARSS”) owned by the cities. Effective October 1, 2019, the member cities terminated their agreement with the City of Waco which results in the termination of operation and management agreements, discontinuance of all WMARSS operations, acceptance of the conveyance of WMARSS assets to the City of Waco, and conveyance of certain WMARSS easements to the City of Waco and the City of Lorena. Simultaneously, the City entered into a wholesale wastewater contract with the City of Waco to become a customer of the City of Waco’s solely-owned wastewater system. Under the previous arrangement, WMARSS member cities shared in percentages of the operations and maintenance and capital project expenditures, which was funded by the City through the issuance of combination tax and certificates of obligation bonds. Under the new arrangement, costs are recovered by the City of Waco through rates set for operations and maintenance, capital improvements, and capacity expansion. The impact of this termination on the City is a special item loss of \$7,805,150 that is recognized in business-type activities and the water and sewer fund.

(15) Commitments and Contingencies

The City has contracted with private companies for the collection and disposal of refuse. The City negotiated a collection contract, with an effective date of June 1, 2017, for a term of five years, with the option to renew and extend the contract for two successive 2-year terms. Under the terms of the contract, the City will be responsible for billing and collection of all waste collection fees and will pay collection fees to the companies on a monthly basis as authorized in the contract regardless of the amount collected from residents.

City of Woodway, TexasNotes to Financial Statements
(Continued)(15) Commitments and Contingencies (continued)

In order to provide a long-term, reliable water supply, the City has become a member of the Bluebonnet Water Supply Corporation (“Bluebonnet”). As a member of Bluebonnet, the City will be able to provide input into the operations as one of eight members of the Board. Under the agreement, the City will be required to purchase a proportional amount of water processed by Bluebonnet. In addition, an agreement has been entered into with the City of Waco requiring Waco to purchase Woodway’s share of water purchased from Bluebonnet and requiring Woodway to purchase an equal amount of water from Waco. All transactions will be at the rates established by the Board of Bluebonnet.

There are currently several claims and lawsuits pending against the City. It is the opinion of City management that there is no pending litigation against the City that, if decided against the City, would have a material adverse effect upon the operations of the City.

(16) Tax Abatements

The City of Woodway negotiates property tax abatements on an individual basis. All abatements are governed by Section 312 of the Texas Tax Code and the City of Woodway Code of Ordinances which are revised and adopted every two years in accordance with state law. These guidelines permit the City to abate property taxes for a variety of economic development purposes such as business relocation, retention, and expansion and include abatements for real and personal property improvements.

The City of Woodway had not granted any tax abatements as of September 30, 2020.

(17) Authoritative Pronouncements Not Yet Effective

A summary of pronouncements issued by the Governmental Accounting Standards Board (GASB) which may impact the City but are not yet effective follows. The City has not yet determined the effects of the adoption of these pronouncements on the financial statements.

GASB Statement No. 84, *Fiduciary Activities* (issued January 2017)– The objective of this statement is to enhance consistency and comparability by (1) establishing specific criteria for identifying activities that should be reported as fiduciary activities and (2) clarifying whether and how business-type activities should report their fiduciary activities. The requirements of this statement were effective for financial statements for periods beginning after December 15, 2018; however, in May 2020, GASB issued statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance* (“Statement 95”), and delayed implementation to fiscal years beginning after December 15, 2019.

City of Woodway, TexasNotes to Financial Statements
(Continued)(17) Authoritative Pronouncements Not Yet Effective (continued)

GASB Statement No. 87, *Leases* (issued June 2017) – The objective of this statement is to increase the usefulness of governments’ financial statements by requiring reporting of certain lease liabilities that currently are not reported. It will enhance comparability of financial statements among governments by requiring lessees and lessors to report leases under a single model. The statement will also require notes to financial statements related to the timing, significance, and purpose of a government’s leasing arrangements. The requirements of this statement were effective for financial statements for periods beginning after December 15, 2019; however, in May 2020, GASB issued Statement 95 and delayed implementation to fiscal years beginning after June 15, 2021.

GASB Statement No. 90, *Majority Equity Interests – an amendment of GASB Statements No. 14 and No. 61* (issued August 2018) – The objective of this statement is to clarify accounting and financial reporting requirements for a state and local government’s majority equity interest in an organization that remains legally separate after acquisition. The requirements of this statement were effective for reporting periods beginning after December 15, 2018; however, in May 2020, GASB issued Statement 95 and delayed implementation to fiscal years beginning after December 15, 2019.

GASB Statement No. 91, *Conduit Debt Obligations* (issued May 2019) – The objective of this statement is to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. The requirements of this statement are effective for financial statements for periods beginning after December 15, 2020.

GASB Statement No. 96, *Subscription-Based Information Technology Arrangements* (issued May 2020) – The objective of this statement is to provide guidance for subscription based information technology arrangements (“SBITA”). It will define SBITA contracts, provide guidance on the accounting for the SBITAs, and require disclosures regarding the SBITAs. The requirements of this statement are effective for financial statements for periods beginning after June 15, 2022.

City of Woodway, Texas**Note to Schedule of Revenues, Expenditures and
Changes in Fund Balance – Budget and Actual –
General Fund****Year Ended September 30, 2020****(1) Budgetary Basis**

The City prepares its budget on a basis of accounting that differs from generally accepted accounting principles (“GAAP”). The actual results of operations are presented in the statement of revenue, expenses and changes in fund equity – budget and actual – general fund on the budgetary basis to provide a meaningful comparison of actual results.

The budgetary basis of accounting includes reporting as expenditures all purchase orders and contracts executed during the year and liquidated within 90 days of the end of the fiscal year. There were no adjustments necessary to convert the results of operations at the end of the year from the GAAP basis of accounting to the budgetary basis of accounting.

Transfers out exceeded appropriations for the general fund for the year ended September 30, 2020 by \$692,000. This over-expenditure was funded by lower than anticipated expenditures in other functions within the general fund.

Notes to Schedule of Pension Contributions

Valuation Date:

Note Actuarially determined contribution rates are calculated as of December 31 and become effective in January, 13 months later.

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Percentage of Payroll, Closed
Remaining Amortization Period	26 years
Asset Valuation Method	10 Year smoothed market; 12% soft corridor
Inflation	2.5%
Salary Increases	3.50% to 11.50%, including inflation
Investment Rate of Return	6.75%
Retirement Age	Experience-based table of rates that are specific to the City's plan of benefits. Last updated for the 2019 valuation pursuant to an experience study of the period 2014 – 2018
Mortality	Post-retirement: 2019 Municipal Retirees of Texas Mortality Tables. The rates are projected on a fully generational basis with scale UMP. Pre-retirement: PUB(10) mortality tables, with the Public Safety table used for males and the General Employee table used for females. The rates are projected on a fully generational basis with scale UMP.
Other	There were no benefit changes during the year.

Note: The City implemented GASB Statement No. 68, *Accounting and Financial Reporting for Pensions, An Amendment of GASB Statement No. 27*, effective October 1, 2014. Information for years prior to 2015 is not available.

See accompanying independent auditor's report.
